The pipe line on South Fork received another jolt Monday night. A hole was blown in it in two places on that date with dynamite, and the practical joker has not yet been apprehended. The leaks were soon repaired and the water, as usual, runs down hill.

A park is in prospect for Carrizozo, and the plan, as outlined by the Townsite company, is to utilize the space between El Paso ave. and the railroad track. The size of the park is to be 200 feet wide by 1400 feet long. All old buildings have been removed, as an initial step.

The railroad company is leveling up its yards, preparatory to making some extensive improvements in the near future. We are informed that an addition to the depot is one of the first things contemplated, and that the work on the building will begin early next month.

Miss Lorena Sager graduated from the Dana Musical Institute at Warren, Ohio, the 9th inst. Immediately after graduation she went to Cincinnati, from which

point she will go to Indianapolis for a week and then to Watseka, Illinois, to visit the Taliaferros, former friends at White Oaks. Miss Sager will reach home early in July.

Ira O. Wetmore is sporting a Reo car. The auto is an evidence of a metropolitan condition and more cars may be expected with the growth of our city. Another thing that follows the advent of the auto as day the night, and is of great practical benefit, is the demand for good roads and streets.

W. M. Reilly, of Capitan, came up from Alamogordo last week, packed his household goods, and, accompanied by his wife and his sister, Mrs. Pons, returned to Alamogordo, their home in future. This family has resided in Capitan and Lincoln county for many years, and their departure is a matter of genuine regret to their host of old friends.

J. M. Rice and Stephen Trone, the former the organizer and the latter the general manager of the Eagle Mining & Improvement Co., were down from Parsons this

week. They called at this office while here and informed us that they expected to start the wheels turning at Parsons early next month.

J. G. Riggie, of Capitan, and attorney H. B. Hamilton, of Lincoln, were over Saturday night, and returned Sunday, via White Oaks. These gentlemen were reticent concerning their business here, but from the broad smile with which they greeted all comers, our guess would be that the nature of the visit was not altogether non-political.

C. C. Bennett, who came to this section from Chicago eighteen months ago, left Tuesday morning for Denver, his future home. Mr. Bennett came here for his health, and has been at Dr. Laws' Sanatorium, Lincoln, the greater portion of his time, though he was for six months manager of the Capitan Mercantile Co. His health has greatly improved; in fact, he was in the pink of condition when leaving.

George Lee, who makes dairying his business, but engages in truck farming for diversion, tells

us that he has the first ripe strawberries grown in the valley. Knowing we were from Texas, George assured us he would prove his assertion by placing some of the berries in our hand; but so far none of this delicious, home-grown fruit has filled an aching void that always exists in this office.

Roy Jacobs, the mighty nimrod of the Capitan, after joining Charlie Wingfield in a week's fish on the 'Doso, returned to his own mountain fastness last week, went out before breakfast and laid a big silver tip low. Bruin was a monster and had the scars of many battles on his old hide which now hangs in Roy's hunting lodge, a treasured trophy of the chase.

The Carrizozo and White Oaks ball teams met on the local diamond Sunday, but as we don't want to get too deep in the mysteries of the national game in this our first issue, we shall simply say: It was a ten-inning game the score standing 10 to 9, in favor of White Oaks. A return game, we understand, has been arranged to be played at White Oaks Sunday.
